### **KVM CAT5e Extender**

## ITEM NO: HKM01-4K HDMI & USB with Audio, RS232,IR CAT5e Extender

The HKM01-4K HDMI & USB with Analog audio, RS232, and IR CAT5e extender design for extend all signals over one CAT5e/6 up to 140 meters, transmitter unit with local HDMI monitor output. It provides superior video quality up to 4K resolutions, and using cost effective CAT5e cable, instead of HDMI, RS232 cables, for an easy, neater and reliable installation. It is optimized for applications at broadcasting system, multimedia display and multi-data sharing, digital signage, home network integration, and industrial control, hospital, education, security and system control over RS232 and equipment control over IR.

#### Features:

- Extend 4K UHD HDMI, USB, RS232, IR and Audio signals over one CAT5e/CAT6 cable.
- Transmission range up to 140M over CAT6, 120M over CAT5e.
- HDMI video resolutions up to 4K@30Hz, 1080p Full HD and 1920 x 1200@ 60Hz.
- HKM01T-4K transmitter unit with HDMI local loop output.
- HDMI audio support up to LPCM 7.1@192Khz.
- HDMI 1.4 and HDCP 1.4 compliant.
- Built in Bi-directional analog audio extender function.
- Support USB 2.0 and compatible with 1.0, 1.1.
- Support Bi-directional RS232.
- Support one way IR extention, IR carrier 20-60 KHz.
- Built in EDID copy.
- Support external SFP optical transceiver, over Fiber extender.
- Receiver unit with 4 ports USB 2.0 devices, to extend USB 2.0 peripheral devices, such as flash drive, hard drive, mass storage device, keyboard, mouse, etc.
- Optional model:
  - SR01 signal repeater for longer distance application.
  - IR-CR01: IR receiver cable.
- Perfect for control remote machines and security monitoring systems, digital signage application.

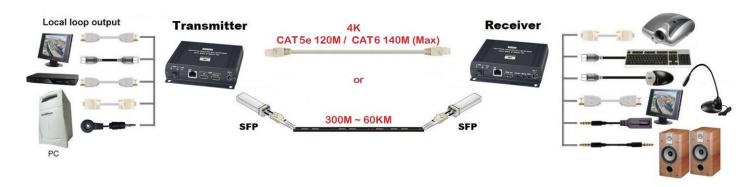

# Optional Model: SR01 Signal Repeater (order separately)

- Extend data signal for an additional 120meters.
- Application for HKM01-4K signals for extra-long range transmission.
- Ability to cascade connection with multiple SR01 for long range transmission
- Built in LED status indication.
- External power required.
- Plug and play for easy installation.

#### Work with HKM01-4K CAT5e Extender:

### **LED Indication Status:**

| Position   | LED Color | Instruction                  |  |
|------------|-----------|------------------------------|--|
| Power      | Green     | Power on/off                 |  |
| LINK       | Blue      | TX and RX Linked             |  |
| LINK       | Green     | SFP Fiber linking indication |  |
| ACT        | Blue      | SFP Fiber active indication  |  |
| RJ45(LINK) | Green     | UTP RJ45 linking indication  |  |
| RJ45(ACT)  | Yellow    | UTP RJ45 active indication   |  |

## **Bottom Switch & Button:**

#### HKM01T-4K

| Switch /Button | Function         | ↓   | <b>↑</b> |  |
|----------------|------------------|---|----------|--|
| 1              | Group            | 0   | 1        |  |
| 2              | RS232            | Normal  | Reserve  |  |
| 3              | R5232            | Normal  | Reserve  |  |
| 4              | EDID             | 4 5<br>↓ ↓ = Select default 1080p LPCM 2CH EDID<br>↑ ↓ = Select RX monitor EDID |          |  |
| 5              | Management       |   |          |  |
| 6              | Reserve Function | Normal  | Reserve  |  |
| Button         | Copy EDID        | Based on Switch 4 & 5 setting to do EDID copy                                   |          |  |

#### HKM01R-4K

| Switch /Button | Function          | ↓  | <b>↑</b> |  |
|----------------|-------------------|--|----------|--|
| 1              | Group             | 0  | 1        |  |
| 2              | RS232             | Normal   | Reserve  |  |
| Button 1       | Function Switch   | MAC, IP, Baud rate, Updated EDID(Reserve)                  |          |  |
| Button 2       | Baud rate setting | 115200, 57600, 38400, 19200, 14400, 9600, 4800, 2400, 1200 |          |  |

# **Rotary Switch:**

HKM01-4K built in rotary switch for pairing devices and the rotary switch can be used to switch 0-F channel pairing with group setting of switch 1. The channel number and group setting of the transmitter and receiver must be same to be connected each other, total up to 32 (16 for each group) pairs could be setup at one switch.

# Digital /Analog Audio Conversion:

| Transmitter  | Transmitter   | Receiver   | Receiver      |   |
|--------------|---------------|------------|---------------|---|
| Analog Input | Analog Output | Microphone | Analog output | Description                                       |
| Line In      | Line Out      | Mic In     | Line Out      |   |
|              |               |            |               | Transmitter analog audio to receiver analog audio |
| 0            | 0             | 0          | 0             | Receiver microphone to Transmitter analog audio   |
|              |               |            |               | (Monitor Mute)                                    |
| 0            | X             | Х          | X             | Transmitter analog input to Monitor output        |
| х            | х             | Х          | 0             | HDMI audio to Receiver analog audio               |
|              |               |            |               | (support LPCM 2CH, monitor mute)                  |
| Х            | Х             | Х          | Х             | HDMI audio to Monitor audio output                |

O = connect audio connector, X = disconnect audio connector

<sup>\*</sup>When the receiver's analog output (LINE OUT) connector or microphone input (MIC IN) connector have been connected, the monitor sound will be turned off. (Mute).

## RS232 Baud Rate Setting:

RS232 Default Baud rate is 115200bps. If change date rate, press button1 (switch) at the receiver unit to select Baud rate menu. Then press button 2 to select the data rate and press button 1 again to confirm and completed the Baud rate setting.

#### **RJ45 Pin Define:**

Link Cable (use TIA/EIA-568-B)

| 1. Orange-white | Data 1 + |
|-----------------|----------|
| 2. Orange       | Data 1 - |
| 3. Green-white  | Data 2 + |
| 4. Blue         | Data 3 + |
| 5. Blue-white   | Data 3 - |
| 6. Green        | Data 2 - |
| 7. Brown-white  | Data 4 + |
| 8. Brown        | Data 4 – |

### Cable:

Link cable recommend use high quality CAT5e,CAT6 UTP/STP/FTP cable. The max working distance is 140M (Max) over CAT6. Poor quality cable or network connection or improper construction will cause unstable connection, video or sound disruptions, picture noise appears.

For longer distance application could be use model no: SR01 for extend longer distance or add a Gigabit Switch.

The fiber-optic transmission interface uses standard SFP fiber modules, and the transmission distance depends on the specifications and performance of the fiber module and fiber-optic cable.

## Trouble Shooting:

- 1. HKM01-4K transmission data rate up to 850Mbps Max.
- 2. When connect to LAN the large data transmission might slow down other devices.
- 3. UTP and SFP optic fiber will be selected automatically if both connected.
- 4. Default EDID is 1080p LPCM 7.1 CH., you could copy remote/loop out monitor EDID from TX.
- 5. When external IR receiver cable connect to RX, the front panel IR will be disabled.
- 6. RX analog audio input (MIC IN) is mono for microphone use only.
- 7. USB output current 500mA per port, total 1500mA.

# Package Include:

HKM01T-4K Transmitter x 1
HKM01R-4K Receiver x 1
USB A to B cable x 1
IR emitter cable x 1
DC 5V 2Amp power adapter x 2
